Future Trends

Luxury Translates as Enjoyable

Dear Friend,

Luxury means living an enjoyable life and **Global Gadgets** provides the luxury gadgets. A clear new trend has been observed recently; our valued customers are very keen to get the latest products and gadgets. As soon as any new product is launched abroad, our clients want to get it. Now that India is an open market for imported goods, our clients want to be the first with any and every new product. We will cater for this new trend in the New Year by introducing at least eight new brands with their different products. This shows our commitment to constantly introduce new products.

The other new trend is that new projects such as luxury hotels, homes, airports and offices are introducing our products in bulk. These projects are aimed at the top users and so our products like top end speakers, **Dyson** 'fan-less' fans, **Dyson Air Blade Hand Dryer**, **LED TVs**, among other products, are increasingly being an essential component of their luxury environment.
In 2013, we plan to introduce more offbeat and useful gadgets to enhance your luxury living to make it more enjoyable.

Wishing you an enjoyable new year,
Globally Yours,
Gurvinder Singh, Managing Director.

Here's Your New iPhone5...

***Global Gadgets** Managing Director Gurvinder Singh assures reliable service as an Apple Authorised Reseller.*

VIP Testimonial

ARJUN WALLIA
Group Founder & Promoter

WALSONS
BUILDING FAITH

"Global outlook, global standards, global products.... that's global for me and my family.... Seldom you come across a supplier who would grow their business based on your personal feedback. Global is one such.... and therefore I call them my very own retailer of choice.... am always happy working with them, in all aspects!"

Best wishes,

Arjun Wallia
